Inequalities by deprivation lifecourse, April 2024

Data Source: Buckinghamshire Council Analysis; ONS; NHS Digital; GOV.UK; Local Insight. Based on infographic produced by Lincolnshire County Council; Icons by Freepik-www.flaticon.com Please note data displayed is based on what is available in January 2024. Deprivation Quintile data generated from aggregated Lower Super Output Areas, with the exception of (*) which are from aggregated wards. † QOF prevalence data is population-weighted but not age-standardised.

Produced by Public Health Intelligence Buckinghamshire Council

Birth Indicators	Indicator	DQ1 value	DQ5 value	Unit	Timepoint of data	DQ5 compared to DQ1 (statistical significance)	DQ method	Source	Definition
	Babies born	809	1,367	Number	2022	Not compared	LSOA	Office for National Statistics (ONS) Public Health Birth File	The number of live births to mothers who are usually resident in each deprivation quintile.
	Birth rate Pre-term births	8.0 5.9%	13.2 9.1%	per 1,000 Percentage	2021 2022	Not compared	LSOA LSOA	Office for National Statistics (ONS) Public Health Birth File Office for National Statistics (ONS) Public Health Birth File	The number of live births per 1,000 resident population. Babies born alive before 37 weeks of pregnancy are completed, as a percentage of all live births.
	Low birth weight of term babies	2.8%	4.0%	Percentage	2022	÷		Office for National Statistics (ONS) Public Health Birth File	Live births with a recorded birth weight under 2500g and a gestational age of at least 37 complete weeks as a percentage
									of all live births with recorded birth weight and a gestational age of at least 37 complete weeks.
	Deliveries to teenage mothers	0.14%	0.37%	Percentage	2020/21 - 2022/23	⇔	LSOA	Hospital Episode Statistics (HES)	Percentage of delivery episodes, where the mother is aged under 18 years.
	Infant mortality rate	2.1	5.5	per 1,000	2020 - 2022	<u> </u>			Infant deaths under 1 year of age per 1000 live births.
Early Years Indicators	Under 16s live in relative low-income families	6.7%	27.4%	Percentage	2022	Û	Wards	Department for Work and Pensions (DWP)	Percentage of children (<16) living in relative low income families. Relative low income is defined as a family in low income Before Housing Costs (BHC). A family must have claimed one or more of Universal Credit, Tax Credits or Housing
									Benefit at any point in the year to be classed as low income.
									NB: Source and methodological change from previous update. Local Insight has discontinued updating this indicator so ward level data from
School Age Indicators	Good level of development by end of Reception	79%	60%	Percentage	2023	\$	LSOA	Buckinghamshire Council Business Intelligence - Childrens and Traded Services	DWP has been used Children defined as having reached a good level of development at the end of the Early Years Foundation Stage (EYFS) as
School Age Indicators	dood level of development by end of Neception	/ 5/0	00%	reicentage	2025	•	LUCA	bucknightanishire council business memgence - childrens and maded services	a percentage of all eligible children.
	Reception children overweight or obese	16.4%	19.7%	Percentage	2021/22	¢	LSOA	National Child Measurement Programme (NCMP)	Proportion of children aged 4-5 years classified as overweight or obese. Children are classified as overweight (including
									obese) if their BMI is on or above the 85th centile of the British 1990 growth reference (UK90) according to age and sex.
	Year 6 children overweight or obese	23.8%	39.8%	Percentage	2021/22	t t	LSOA	National Child Measurement Programme (NCMP)	Proportion of children aged 10-11 classified as overweight or obese. Children are classified as overweight (including
		23.070	55.670	rereentage	1011/11		250/1		obese) if their BMI is on or above the 85th centile of the British 1990 growth reference (UK90) according to age and sex.
			<u> </u>						
	School attainment 8 score	62.6	45.8	Average score	2022	Not compared	LSOA	Buckinghamshire Council Business Intelligence - Childrens and Traded Services	Average Attainment 8 score for all pupils in state-funded schools.
	Children looked after	12.5	64.0	Per 10,000	January 2024	t t	LSOA	Buckinghamshire Council Business Intelligence - Childrens and Traded Services	Number of children looked after at 30 September (including adoption and care leavers).
	cindren loked alter	12.5	04.0	Per 10,000	January 2024	•	LBUA	bucknighanishire council business interrigence - chrunens and ir aueu services	Number of children rooked after at so september (frictidung adoption and care reavers).
	16 to 17 year olds not in education, employment or training (NEET)	4.4%	10.4%	Percentage	December 2023	Û	Wards	Buckinghamshire Council Business Intelligence – CCIS	Proportion of 16-17 year olds not in education, employment or training (NEET) or whose activity is not known.
	Hospital admissions for intentional self-harm 10 to 24 years	394.2	323.0	per 100,000	2021/22	⇔	LSOA	Hospital Episode Statistics (HES)	Directly standardised rate of finished admission episodes for intentional self-harm per 100,000 population aged 10-24
Manhima Ana Indiantana		0.7%	4.000	Deventerer	O-tt-h 2022		1504		years.
Working Age Indicators	Working age (16 to 64 years) claimant count	0.7%	4.8%	Percentage	October 2023	₽	LSOA	NOMIS official census and labour market statistics	The number of people claiming unemployment benefit (Jobseeker's Allowance and Universal Credit) as a proportion of the working age (16-64 years) population.
	Households in fuel poverty	6.3%	9.4%	Percentage	2021	Not compared	LSOA	Local Insight / Department for Business, Energy and Industrial Strategy	Fuel poor households as a percentage of all households. A household is considered to be fuel poor if they are living in a
				-					property with a fuel poverty energy efficiency rating of band D or below and when they spend the required amount to
		07.0		4 000 11 1					heat their home, they are left with a residual income below the official poverty line.
	Total crime offences	37.6	115.9	per 1,000 residents	Sep-22 to Aug-23	Not compared	LSOA	Local Insight / Police UK (Police recorded crime figures)	Shows 12 month total of neighbourhood-level incidents of criminal offences, and as a rate per 1,000 residents. The incidents were located to the point at which they occurred and allocated to the appropriate output area and lower super
									output area (LSOA).
									Rate calculated as = (Total offences)/(Total population)*1000.
	Adult social care users (18 years and over) getting as much social contact as	45.8%	45.1%	Percentage	2022/23	⇔	LSOA	Adult Social Care Survey 2022-23 (ASCS), Buckinghamshire Council Business	The percentage of respondents to the Adult Social Care Survey (service users) who responded to the question "Thinking
	they would like							Intelligence - Adults & Health	about how much contact you've had with people you like, which of the following statements best describes your social
	Percentage of people who use services who have control over their daily life	69.5%	69.7%	Percentage	2022/23	⇔	LSOA	Adult Social Care Survey 2022-23 (ASCS), Buckinghamshire Council Business	situation?" with the answer "I have as much social contact as I want with people I like". The percentage of respondents to the Adult Social Care Survey (service users) who responded to the question "Which of
					,			Intelligence - Adults & Health	the following statements best describes how much control you
									have over your daily life?" with either "I have as much control over my daily life as I want" or "I
			170.6	400.000	2024/22		1001		have adequate control over my daily life".
	Emergency Hospital Admissions for Intentional Self-Harm (all ages) Emergency Hospital Admissions for Mental Health conditions (all ages)	98.9 132.2	172.6 291.1	per 100,000 per 100,000	2021/22 2021/22	1 1	LSOA LSOA	Hospital Episode Statistics (HES) Hospital Episode Statistics (HES)	Directly standardised rate of finished admission episodes for intentional self-harm per 100,000 population. Directly standardised rate of finished emergency admission episodes for all mental health (ICD10: F00-F99) per 100,000
				p,	,	-			population.
	Adults physically active	70.5%	64.7%	Percentage	November 2018 -	Not compared	LSOA	Local Insight / Sport England	The modelled estimated percentage of adults (aged 16+) who are classed as 'active'. People are described as being active
					November 2019				if they have done at least 150 minutes of moderate intensity equivalent (MIE) physical activity (excluding gardening) in
	Estimated smokers (15 years and over)	10.3%	15.7%	Percentage	2021/22	Not compared	GP to LSOA	NHS Digital Quality and Outcomes Framework (QOF)	the past week. Prevalence of patients (15+) who are recorded as current smokers. Number of patients (15+) who are recorded as current
					,			NHS Digital Patients Registered at a GP Practice, LSOA	smokers (denominator of SMOK004) divided by the estimated number of patients (15+), in percent.
	Alcohol-related hospital admissions	439.7	627.2	per 100,000	2021/22	Û	LSOA	Hospital Episode Statistics (HES)	Admissions to hospital where the primary diagnosis is an alcohol-attributable code or a secondary diagnosis is an
			'						alcohol-attributable external cause code. Directly age standardised rate per 100,000 population.
			1						NB - HES currently still uses the 2014 attributable fractions, whereas Fingertips uses the 2020 fractions meaning the two are not comparable.
